-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Information Disclosure Statement***

1. The information disclosure statements filed on 07/06/05 and 05/16/08 have been considered and placed in the application file.
2. This application is in condition for allowance except for the following formal matters:

***Specification***

3. The disclosure is objected to because it contains an embedded hyperlink and/or other form of browser-executable code. Applicant is required to delete the embedded hyperlink and/or other form of browser-executable code. See MPEP § 608.01.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

***Allowable Subject Matter***

4. **Claims 1-31** are allowed.

The following is an examiner's statement of reasons for allowance:

This invention relates to address management and service provisioning relevant to the address transition (i.e. mobility control) and to be used for the WLAN to inter-work with other networks. The inter-worked network could be another WLAN or a public cellular network.

**Claims 1-31** are considered allowable over the prior of record, since the prior art of record fails to show or fairly suggest a system for managing address allocation of a mobile terminal in WLAN inter-working without depending on local WLAN access control, wherein a secure end-to-end service authorization signalling between the mobile terminal and a controller in a home domain of the mobile terminal that has access to user subscription information is used for address management, whereby the controller can manage the address allocation based on service authorization information as substantially described in claim 1.

**Claim 2** specifies the system for managing a tunnel as opposed to the managing address allocation of claim 1 and **claim 3** specifies a system for managing address allocation of a mobile terminal and a tunnel used by a mobile terminal in WLAN and are similarly allowed.

**Claims 15-17** are the method claims necessary for the system claim of claims 1-3 and are therefore allowed for the same reasons.

All other dependent claims are allowed by virtue of their dependency on their corresponding independent claim(s).

## **Conclusion**

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sonny TRINH whose telephone number is 571-272-7927.
